WTIA Company Member Management

FLB has a strong alliance with the WTIA to provide customised services for WTIA Company Members where Australian skill shortages have been identified, and local advertising has failed to fill the required positions. Free entry in the WTIA Bulletin publications under Positions Vacant is included in the package.

FLB is managed by Australian personnel (in both the Philippines and in Australia) and closely coordinate both locations to facilitate the smooth transition of all Filipino workers into Australia. FLB strives to provide their services to the highest Australian standards. WTIA Members are led through our systemised recruitment process with FLB taking all the processing hassles away from Member Companies.

FLB's International client servicing structure means that WTIA Company Members have one point of contact in Australia, and our Filipino recruitment and administration staff use the latest Internet communication technologies to facilitate a seamless International recruitment process for Members.
